INVITATION

AN AFTERNOON FOCUSING ON CARBON AND WATER MANAGEMENT (SEP 26)

Invitation from the Joint Bloomberg-Deloitte Hong Kong Sustainability Reporting Working Group

Bloomberg and Deloitte invites you to our working group session in which we will discuss issues and engage in workshops focusing on the topic of value creating carbon and water management and reporting.

In the speaking part of the session, speakers from leading organizations, China Water Risk, H&M, Carlsberg and the World Business Council for Sustainable Development (WBCSD), will make presentations on key issues relating to the management and reporting of carbon and water-related issues.

The session will end with a workshop where WBCSD will share with us their tools and methodologies related to green-house gas emissions and water management as well as the experiences WBCSD have gained from multinational companies when working with them on carbon and water issues.

Agenda:

13:30 – 14:00	Registration Begins
14.00 – 14.10	Welcome by Frances Liu, ESG Specialist, Bloomberg, and Angelica Berg, Manager, Enterprise Risk Services, Deloitte Sustainability, Hong Kong
14:10 - 14:40	**Water management and reporting – why is it important for businesses operating in China?** -Debra Tan, Director, China Water Risk
14:40 – 15:10	**How and why is carbon and water managed and reported in H&M?** -Fredrik Rosenholm, Global Sustainability Manager for Supply Chain, H&M
15:10 – 15:40	**How and why is carbon and water managed and reported in Carlsberg?** -Eskild Andersen, Group Environmental Manager, Carlsberg

About the WBCSD Carbon and Water tools Session

Béatrice will give an overview of the WBCSD, a CEO-led coalition of 200 multinational companies focused on scaling up business solutions to sustainability. She will take us through how these companies are integrating sustainability into core business operations through the use of tools and methodologies\ such as the GHG Protocol and the Global Water Tool. This will also high-light the importance that scores of companies attribute to measuring and managing environmental and socio-economic impacts, and the implications for corporate reporting and valuation.

INVITATION

About Our Speakers

Debra Tan, Director, China Water Risk

Debra Tan heads China Water Risk, a non-profit initiative dedicated to highlighting and addressing business and environmental risk arising from China's urgent water crisis. Debra was responsible for the build out of the initiative's free-access website www.chinawaterrisk.org, funded by ADM Capital Foundation, RS Group and Rockefeller Brothers Fund. She has written extensively about the water-energy-food nexus as well as reports analyzing the impact of water risks on certain sectors for financial institutions and corporates. She has also given numerous talks, moderated and participated in panel discussions and conferences around water issues to investors and corporates.

Tan started her career in finance, spending over a decade as a chartered accountant and investment banker specializing in mergers & acquisitions and strategic advisory. She has lived and worked in Beijing, Hong Kong, Kuala Lumpur, London, New York and Singapore. Debra left banking to explore her creative side. She has since pursued her interest in photography and within a year had her first solo exhibition sponsored by a global bank. She also ran and organized hands-on philanthropic and luxury holidays for a small but global private members travel network and applied her auditing, financing and photography skills in the field for various charitable organizations and foundations.

Fredrik Rosenholm, Global Sustainability Manager for Supply Chain, H&M

Mr. Fredrik Rosenholm is Global Sustainability Manager for H&M's supply chain in Hong Kong. As manager of social and environmental issues both on product, facility and policy, Fredrik ensures that H&M's sustainability program is at the forefront and that the implementation is approached together with necessary stakeholders, as well as effective and transparent. Fredrik started his career with H&M as a business controller and has since worked in various roles in retail-, buying-and marketing department before joining the sustainability department 5 years ago.

INVITATION

About Our Speakers (continue)

Eskild Andersen, Group Environmental Manager, Carlsberg

Mr. Andersen is Group Environmental Manager at Carlsberg Group in Copenhagen. He graduated as a B.Sc engineer in 1998, and has hereafter worked with quality and environmental management in DLG Group (one of the largest agricultural companies in Europe) and Carlsberg Group. Since 2008 he has been part of Carlsberg Group's CSR unit where he has been responsible for environmental strategy development and environmental management at cooperate level.

Furthermore, he has been managing projects on water and carbon footprint, LCA analysis, and environmental reporting. Eskild is also representing Carlsberg Group in BIER (Beverage Industry Environmental Roundtable), and in Brewers of Europe environmental working group."

Béatrice Otto, Member Relations, World Business Council for Sustainable Development

Béatrice Otto joined the WBCSD in 2006. As Director of Member Relations, she ensures that members derive full value from their membership, and that potential members can find out how their company would benefit from joining. She also has oversight for the two annual meetings of members, in particular coordinating the design of the main plenary sessions.

Before joining the WBCSD, Béatrice worked as an independent consultant on sustainable business, with a strong focus on design and innovation in products, services and business models. She developed a sustainability strategy for the UK's Design Council under the Department of Trade & Industry, and ran several projects for the Design Council, including Sustainable Strategies. She also led the industry development capacity building activities of the EU's biggest environmental program in China, setting up and piloting a Sustainable Business Network, and developing and delivering seminars on sustainable business – in Chinese - for senior Chinese executives.

Béatrice has lived and worked in China and Taiwan for 7 years. She studied Chinese culture, language, politics and history at Leeds, Edinburgh and Fudan Universities, including 5 years post-graduate research. She is the author of Fools Are Everywhere, the first and only global study of its kind, drawing on materials in 10 languages, many never before translated. Published by Chicago University Press (2001 and 2007), it won the American Association of Publishers Award for Outstanding Book of the Year in its class. Béatrice is also a Fellow of the Royal Society of Arts, Manufacturing and Commerce (RSA).

Bloomberg

INVITATION

Introducing the Working Group

Since Sustainability Reporting is primarily developed by companies forging their own paths driven by the need to satisfy the requirements of their own stakeholders, it is very challenging to make a start in the field as it requires substantial innovation and a flexible approach.

The Hong Kong Sustainability Reporting Working Group was established, in the Deloitte and Bloomberg ESG seminar held on 9th Nov, 2012. In the seminar, expert speakers from Hong Kong Stock Exchange, SASA, CLP, Bloomberg and Deloitte shared their views on Sustainability Reporting.

The overall objective of the Working Group is to discuss and develop Sustainability Reporting of organizations in Hong Kong. The Working Group will also aim to support Sustainability professionals with addressing the issues and dilemmas that they face when undertaking Sustainability Reporting in their companies. The objectives can be further determined by the Working Group members according to their special requirements as the Working Group develops. By engaging in the Working Group, Sustainability Reporters in Hong Kong can learn from one another, engage in valuable discussions and make a difference by contributing to raising the bar for Sustainability Reporting in Hong Kong.

The Working Group will not be a sales channel for consultants but a forum for dedicated Sustainability professionals who are passionate about Sustainability Reporting. The members will represent themselves and not the companies they work for. All sessions will be conducted under Chatham House Rules.

* "Sustainability reporting", in this context, refers to all types of non-financial reporting including ESG Reporting, Corporate Social Responsibility reporting, Citizenship Reporting, Progress Reporting, etc.
